

## REMARKS

### Claim Amendments

Only the admittedly enabled indications remain in claim 17. The entry of the amendment and the allowance of the application are respectfully and courteously requested.

Claim 9 refers to a compound of formula I, but does not depend on claim 1, which actually recites the compound of formula I. This is remedied in the amendment herein.

The last part of claim 11 inadvertently twice recited reacting. The claim is further clarified. Also, the reaction involves the compound of formula III, while said compound is not recited in the claim. This is also corrected.

Two additional dependent claims are added. Applicants request the entry and allowance of these claims as such would not require a further search and would not raise new issues.

If any issues remain, applicants request that the undersigned be contacted for the expeditious resolution thereof to achieve an expeditious allowance.

The Commissioner is hereby authorized to charge any fees associated with this response or credit any overpayment to Deposit Account No. 13-3402.

Respectfully submitted,

/Csaba Henter/
